Re: Project Name: ***A+U Pull it, Inc. Automobile Recycling LSD***

This is to advise the Board that Evangelists for Christ, Inc. opposes the proposed project mentioned above which is set to be reviewed on May 1, 2008.

There are five residences on the land owned by Evangelists for Christ. We have lived here since 1970. With the exception of maybe three years, this property next to us has remained a pile of junk. It has recently been cleaned up and is a lovely piece of land. The wildlife has been coming in from all around us.

A fence will do little good, except to outline the "junk yard," as the highway sets above the area with a view looking down. We hate to think that we will have to live next to such a place the rest of our lives, and we're asking you to oppose the project.

Sincerely,

Margaret McDaniel
