### Laser Shot Demonstration

Washington County Sheriff Tim Helder announces *Laser Shot* demonstration.

The Washington County Sheriff's Office recently purchased a shooting simulator to assist in officer training. This state of the art equipment and software called *Laser Shot*, will be demonstrated for the news media on Friday, February 27, 2009 at 9:00 a.m. in the East Annex of the Washington County Sheriff's Office, 1155 Clydesdale Dr., Fayetteville, AR. News media are invited to observe/participate in the demonstration.

The following information is provided from the *Laser Shot* website at <http://www.lasershot.com/>.

Since 1999 *Laser Shot* has grown to become a major provider of force option simulators to Military and Law Enforcement clients with an installed base of over 1000 simulators. Some of the world's premier Law Enforcement Agencies including FLETC, the FBI, the U.S. Military, the London Metropolitan Police, and the National Nuclear Security Administration have chosen *Laser Shot*. The product is easy to use, easy to set up, reliable, cost effective, and designed with input from those who use it. *Laser Shot* prides itself in 100% customer satisfaction.

*Laser Shot* is American owned and operated in Houston, Texas and has satellite offices in Washington, D.C. and London, England. *Laser Shot* has grown to over 60 employees dedicated to providing unsurpassed service and support. Constantly investing in new technology, *Laser Shot's* capabilities include hardware and software design and development. *Laser Shot's* hardware specialties

include recoil systems, as well as tetherless weaponry, laser devices, modular and containerized shooting ranges with live-fire. Software capabilities include video and computer generated scenarios, players and editors, award winning, "Course of Fire 2", tactical skill building drills, educational tools and database creation with record keeping. *Laser Shot* has become a key provider and enabler to the Military and Law Enforcement training teams and strives daily to help prepare our first responders and military personnel for the hazards of their profession."
